Market ID cards – your entry to freshness

Transfer of the personalised ID cards is not permitted. The market ID cards must be kept with you at all times on the wholesale market site and presented to the market surveillance authority on request. The market ID cards can be used to open the barriers at the entrances. The driving and trial ID cards must be displayed/attached in a clearly visible position on the windscreen of vehicles. Holders for the driving ID cards are available at the market ID office.

Entry/exit for the wholesale market site - barrier system

The barriers at the east and west gate are equipped with electronic readers in the area of the left entry lane, as well as with a sneak-by guard. Market participants with a market ID card can use the left access lane and hold the market ID card in front of the respective reader to open the barrier. The right lane is used by buyers with trial ID cards, visitors and non-resident carriers. Please hold up the trial card in a clearly visible position for the gatekeeper so that the barrier can be opened for you. However, market participants with a market ID card must still expect random checks by the gatekeepers, in particular for vehicles with several occupants.
